PROFESSIONAL PROFILE

Results-oriented software developer with a passion for designing and developing innovative solutions to complex problems. Skilled in full-stack development, agile methodologies, and collaborating with cross-functional teams to deliver high-quality software products. Proficient in programming languages such as C#, Python, and JavaScript, with expertise in frameworks such as ASP.NET and React. Strong understanding of database management, leveraging technologies like SQL and Firebase. Demonstrated ability to meet project deadlines and deliver scalable and maintainable code. Seeking a challenging software development role to contribute my technical expertise and drive business growth.

Employment History

Associate Engineer at Nagarro April 2022 – April 2023

- Developed expertise in Data Structures and Algorithms, MVC and Design Patterns using .Net Core C#.
- Designed and developed a student-teacher management application using Angular framework, resulting in a 30% improvement in data accuracy and a 20% reduction in data entry time.
- Developed a clothing e-commerce website using React, a cutting-edge JavaScript library for building user interfaces.
